- Scheduled Cleaning: Regularly clean rollers, sensors, and internal components.
- Consumables Management: Monitor toner and imaging unit statuses; replace them proactively.
- Paper Handling: Use high-quality, compatible paper; avoid overloading trays.

- Firmware Updates: Keep the device firmware current to benefit from bug fixes and improvements.
- Environment Control: Maintain optimal temperature and humidity levels to prevent overheating or moisture-related issues.
- Training: Educate users on correct operation procedures to minimize user-induced errors.
